

**FULLY ADJUSTABLE - ABRASION RESISTANT**

# ***ANGLE BLADE FLOAT***

**New Angle Blade design with slotted holes allows for full adjustment of all cutting blades so you can cut or fill where you need it.**

**All wear surfaces including the rear smoocher are fabricated out of Abrasion Resistant steel which will out wear mild steel 3 times.**

**All wear and cutting blades are designed with slotted bolt holes in center so blades can be adjusted or rotated for new cutting edges.**

**Heavy duty construction through out. Available in widths of 10' to 16'.**
