

36" SIDE DRIVE LOADER

Designed for transferring bottom dump trailers into stock piles. Self-propelled so operator can easily drive forward, reverse, or sideways. It will also rotate in it's own diameter. Troughed belt design keeps all material on top of belt. Rollers under belt reduce belt drag allowing loader to use 30% less horse power. Heavy duty drive-over ramps take the weight of a fully loaded truck & trailer. Hand operated rubber hopper flaps designed for no spillage of material. Will unload approximately 12,000 lbs of material per minute. Towable behind a full size pick-up.

STANDARD FEATURES:

- 36" Cleated Belt
- Drive over ramps
- 6" Drive over height
- 14'6" Discharge height
- 49 H.P. Yanmar Diesel Engine
- 7K Torflex Axle
- Hydraulic controlled, adjustable hopper flaps
- Hydraulic controlled, adjustable discharge hood
- Operator platform
